

Positive feedbacks:

1. A solution for a real problem;
2. Connect people, friendly;
3. Yes, less traffic;
4. Ecologic;
5. Good verbal pitch;
6. Car sharing is a great idea;
7. Economical;
8. 360° Planned;
9. Easy to use through an application;
10. No need to think about parking;
11. Makes traveling in the city easier;
12. The rating system sounds great;
13. Great for people that don't have a car.

Negatives:

1. Implementation issues;
2. Legal issues;
3. People would not trust unknown people and/or the system;
4. Already exist and could not work then;
5. Difficult to arrange trips;
6. The public transport alternative;
7. Nobody (or few) will use it because it is not free;
8. The business model may not work;
9. Why do existing system do not do this yet?
