People said that they hate

1. What is the novelty value?
2. Different laws and regulations from place to place
3. Missing business model
4. Lots of work to write and set up the system
5. Agencies already have their own catalogue and don't want to be compared
6. Very different kinds of events with different requirements
7. Team of two probably not enough
8. To many kinds of events with different needs
9. Need professionals to set up the system (agencies)
10. Difficult to generate money
11. It won't make my life easier. It just adds another layer where problems can occur.
12. Works locally or ...?
13. Complicated to develop
14. Confusing
15. I want to organize my event outside of my home
16. Why 3D models
17. Complicated system
18. What about the profitability
19. Difficult implementation
20. The party planner does the same things & agencies as well. It might not be their interest to register
21. For small events only since the big events are organized differently
22. Locations
23. Provided a list of brands, food suggestions and so on
24. Too much concorrence
25. Tricky implementation, very careful with UI
26. Single number team
27. Event management and organizing does not seem profitable
28. Why should you be so good at event organizing?
29. Too wide
30. Where is the guarantee about quality of the event
