Bads:

- There is not a Business Model
- Some redundant features (events..)
- I don't like sports ( so it's not for everybody)
- too long tagline
- How would you make money?
- Business Model
- business model
- How would you promote it in other social network?
- money?
- Skateboard has already straight crews
- Service does not get much paid
- Just another social network!!!
- The starting idea is good but i think you missed the point.
- Don't make it a social network.
- The name rimbale is good but can it be used?
- How to differentiate this from other network?
- Limited to outdoors? not much going on in the winter! Maybe consider also insides.
- There are already similar services (runstatic, noom) for running and many other sports.
- I don't want to communicate to everyone!
- How do you make money out of it?? business plan!!
- Yet another community! There are so many already! How do you stand out?
